

COST Action ES0802
Meeting of WG2 (Sensors for UAS)

Cambridge, 20-21 September, 2010

Agenda

1. Welcome (**Jens Bange**)
2. Brief introduction of group members / new members / who left
3. Conclusions of the last meeting in Andenes (**Jens Bange**)
4. Status of the online sensor data base (**Burkhard Wrenger**)
5. Short presentations (10 minutes each) open to any WG member:
New sensors and new applications aboard UAV
Please announce your short presentations to jens.bange@uni-tuebingen.de
6. Discussion: How to improve the sensor data base
7. Reports of the task / section leaders:
 - i. **Phil Anderson**: Experimental comparison of sensors for a given quantity under different environmental conditions
 - ii. **Manfred Lange**: Integration and optimisation of different sensors for certain tasks
 - iii. **Heinrich Warmers**: Data sampling, storage, interfaces, formats
8. Discussion: How should we proceed in WG2?
9. Definition of tasks assigned to individual WG2 members
10. Closing: Topics to be discussed on following meetings
